#### New Stock

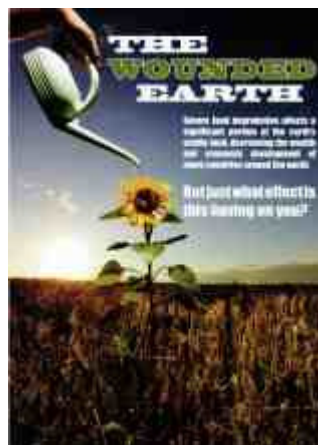

On the back of another successful Australasian conference, Wellness Resources is pleased to present new tools to enable you to better build your business and improve your knowledge of glyconutrition.

Check out the Harpers Biochemistry reprint of the chapter on Glycoforms and glycosylation. No need to buy a \$200 text book when for \$4.50 you can have the most credible reference available on the importance of essential sugars.

#### The Wounded Earth

Ever wondered why supplementation has become so important in the last 50 years?

This 4 page A5 hand-out explains how modern commercial farming practices have left a legacy of nutrient deficient foods and offers a solution in the form of Glyconutrient supplementation.

#### Gold Coast Vision Saturday

Your last chance this year to get some of the most up-to-date and relevant training on glyconutrient supplementation and business building.

Saturday, November 29<sup>th</sup>
